Letter to Shareholders — Q2 FY2026

BootyNet Corporation (NASDAQ: BOOTY)

Fellow BootyNet stakeholders,

Q2 was a quarter of disciplined execution against our long-term infrastructure roadmap. Despite macro headwinds in the residential mesh sector, we delivered against several strategic priorities.

As previously guided, we completed the migration of our core digital properties to the .org top-level domain family, unifying our brand architecture under bootynet.org — a move reflecting our commitment to long-term domain equity over short-term convenience. Separately, our Communications Division completed a full-stack rebuild of BootyMail™ delivery infrastructure, introducing redundant inbound and outbound pathways to improve deliverability SLAs for our enterprise BootyPay and BootyKeycard customers.

Following the Q1 Zero-Trust™ incident, we are pleased to report zero P1 incidents in Q2, alongside continued investment in observability tooling across our edge network.

Gerald Booty Chief Executive Officer, BootyNet, Inc.
